

CEO Presentation

April 4, 2011

Legislative Update - Government Reorganization Bill

- Bill places SR and VPK under DOE in its own division
 - This move is supported by the Association of Early Learning Coalitions because there is no prospect of moving these programs to the new jobs agency and DCF is just not a good option
- Substitute amendments filed by Senator Wise placing SR in DCF and VPK in DOE
 - Amendments withdrawn on Friday for lack of support
- Most education and child advocates are opposed to splitting the two programs
 - 75% of SR providers are also VPK providers
 - 75% of 4 year olds SR participants also participate in the VPK program

Legislative Update

- Concerns expressed by private and faith based providers about having both programs under DOE
 - They feel that the public school system will eventually take over the VPK program and may require degreed teachers
 - They are also fearful of the DOE bureaucracy
 - DOE representatives insist that they fully intend to work in partnership with private and faith based providers
 - An amendment may be introduced to protect private providers
 - The amendment will be fully supported by the AELC

VPK LOW PERFORMING PROVIDERS

VPK Low Performing Providers

- **Implications of being a LLP**
 - Programs may be perceived by the public as being deficient
- **Both UCP Seminole Child Development Center and UCP Holloway Downtown Center serve a higher rate of children with special needs**
 - They both qualified for a Good Cause Exemption
- **Only programs that have been an LPP for 4 or more consecutive years may appeal to the DOE**
- **Note: Monroe has no Low Performing Providers**

VPK LPPs – How we are helping

- The ELC
 - is offering to meet with all the providers to explain the improvement process established by DOE and AWI
 - will provide technical assistance in completing the improvement plan
 - will work with providers that are LPP 2 to verify that they have an approved curriculum
- Concern that VPK admin/program support will be reduced to 4% from 4.5%
 - This will impact the ELC's ability to perform all required functions including: monitoring, certification, training, and technical assistance
