The Children's Movement: Insisting that Children be Florida's No. 1 Priority

The Children's Movement of Florida is a citizen-led, nonpartisan movement to educate parents and leaders in the state about the urgent need to improve how we care for our children. The Movement's goal is to encourage Floridians to make children their highest priority when it comes to investments in the future. Led by David Lawrence Jr., the Children's Movement aims to provide access to quality health care, screening and treatment for special needs, quality prekindergarten opportunities, high-quality mentoring programs and support and information for parents.

Parents are most central to children's success. They can do their part by ensuring that the Legislature carries out strategic investments, especially in the areas of parent skill-building. View the 2012 Legislative Agenda on their [website](#). By following the legislative session, parents can stay up-to-date on important issues in the field of early education.

Help The Children's Movement achieve their goals by becoming a member and champion for children. Visit their [Take Action](#) page for more information.

Ask Dr. Hughes

Do you have any questions for our resident expert in child development? Ask Dr. Hughes!

Each month, *Parent Link* research and evaluation analyst Christine Hughes, Ph.D., will answer your questions about child development. Topics cover language, social skills, play, behavior, motor skills, and thinking and learning from ages birth to 5-years-old. Dr. Hughes earned her B.A. in psychology from the University of Miami, where she currently teaches part-time. Her research has focused on the development of at-risk infants and children in early intervention. Please email your questions to info@elcmdm.org with "Ask Dr. Hughes" in the subject line. Also, include the location of your residence in Miami-Dade or Monroe County (e.g., Coconut Grove, Kendall, Key West).

Please note that questions may be edited, and not every question received will be answered in the newsletter. To protect the privacy of individuals and maintain confidentiality, names will not be printed, but we may refer to individuals by area (for example, "A mother in Miami Beach asked...").
